

Roberto was sad. He had just moved to the big city with his parents and missed his friends from back home. More than anything, Roberto loved to dance.

Early one morning, he set out across the city to find new friends to dance with.

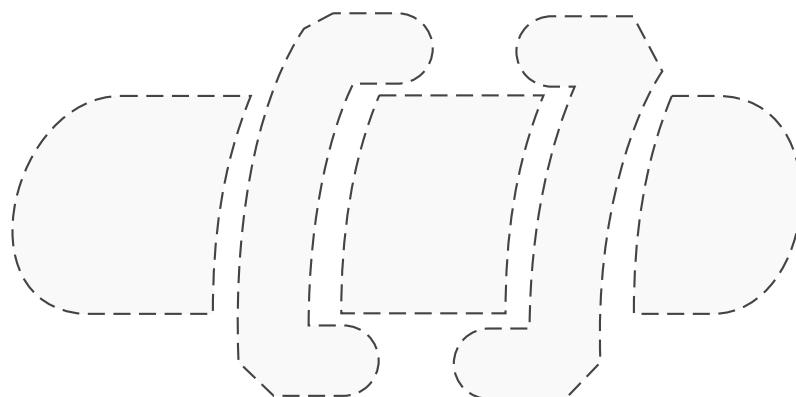

Can you use the stickers to teach Roberto how to dance?

Roberto hadn't walked more than a block when he met a bird perched on a lamp. "Maybe this bird will be my new friend," he thought. Roberto was so excited by this idea that he started dancing and dancing. The bird, who didn't like dancing or people, for that matter, ruffled his feathers and flew off in a huff.

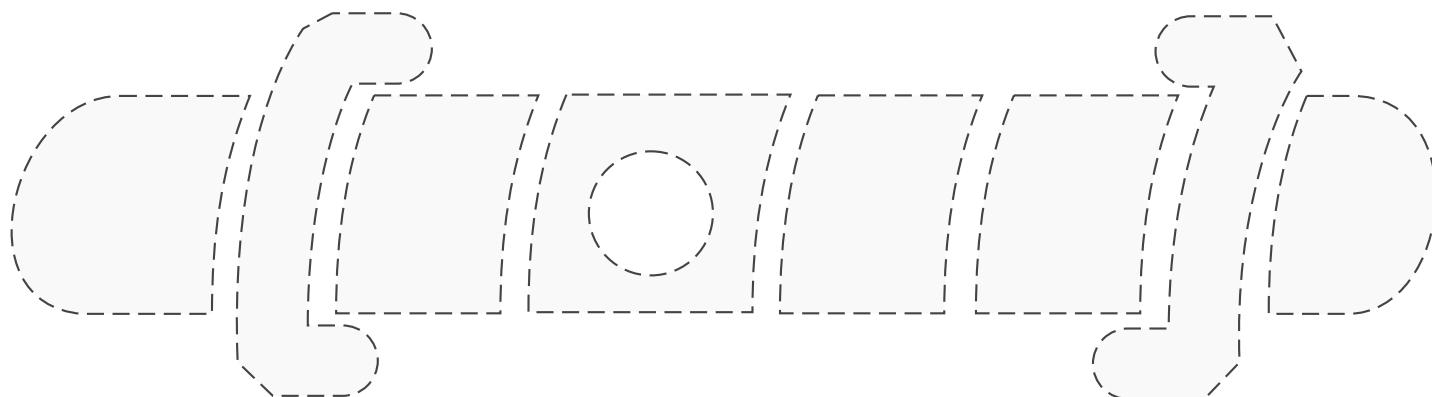

Can you use the stickers to make Roberto do his dance over and over again without stopping?

Roberto was exhausted from the long day of searching for new friends. He wandered along a twisting path, through a gate, and past a fountain where he found a comfortable place to settle in for an afternoon nap in the shade of an oak tree.

It looks like a new friend might be coming. Use the stickers to wake Roberto up from his nap by tapping on the screen.
